

Lesson 7

Meetup.com

Tasks

1. Set up Meetup profile
2. Upload a profile picture.
3. Put up a short introduction about yourself – this is a social site, so keep it about you, your interests, hobbies, likes, dislikes etc. Treat this as if you were meeting someone at a party or other social event for the first time. What do you want them to know about you?
4. Go to “Find a Meetup group”
5. Look for “Suggested Meetups” within 10 miles of your home (key in nearest city or postal code).
6. Review the suggested groups.
7. Find a group you would be interested in joining and join by clicking on “Join us”
8. Find the date of the next meeting and RSVP “yes” for it.
9. Go to the “Discussions” tab for that group and join the discussion by making a comment, asking a question or just introducing yourself.
10. Send an email to the group organiser, using Meetup’s email option and introduce yourself briefly.
